

DAVIS ALLIANCE SOCCER ACADEMY

Mission Statement

Davis Alliance Soccer Academy (DASA) is organized as a non-profit organization under the general laws of the State of California to operate exclusively for recreational and educational purposes without bias regarding race, creed, color, sex, religion, ethnicity or socio-economic status. We subscribe to the highest ethical standards which require that the club's leaders and members follow all the rules and regulations as defined by the Sacramento Youth Soccer League (SYSL); the California Youth Soccer Association (CYSA); the United States Soccer Federation (USSF); US Club Soccer; and the Federation Internationale de Football Association (FIFA).

The goal of Davis Alliance Soccer Academy is to promote an appreciation for the sport of soccer by providing progressively higher levels of competition within a safe supportive teaching environment.

At competitive league levels, our purpose is to further develop our players as "students of the game", reinforcing more advanced technical skills, tactical awareness, physical conditioning and sportsmanship by providing more advanced coaching.

We strive to develop our members into outstanding players and student-athletes who will exceed in higher-level soccer programs, through total player development in an environment that fosters individual confidence along with team success.
